

Core Maths Conferences

Professional development for current and prospective teachers of Core Maths

A one-day professional development and networking conference for current or prospective teachers of Core Maths, featuring opportunities to:

- gain support in meeting the challenges of establishing and sustaining Core Maths
- experience interesting and stimulating ways of introducing Core Maths topics in the classroom,
- network and share ideas with fellow teachers with varied levels of experience in teaching Core Maths

Who should attend?

This conference is suitable for any teacher planning to introduce Core Maths to their school or college, or any teacher who is currently teaching Core Maths. The content included on the day will be relevant to all of the Core Maths specifications.

Costs and application

This conference is free of charge to state-funded schools and colleges. To apply, please complete the online form at:

furthermaths.org.uk/form/coremaths-application.php

About the AMSP

The Advanced Mathematics Support Programme (AMSP) is a government-funded initiative, managed by MEI, which aims to increase participation in AS/A level Mathematics and Further Mathematics, and Core Maths, and improve the teaching of these level 3 maths qualifications.

The AMSP provides national support for teachers and students in all state-funded schools and colleges in England. Additional support will be given to those in priority areas to boost social mobility, so that, whatever their gender, background or location, students can choose their best maths pathway post-16, and have access to high quality maths teaching.
