

The Further Mathematics Support Programme

Introduction to Mechanics for beginners

A twilight session for teachers who are new to teaching mechanics.

Bexhill College, Penland Road, Bexhill-on-sea, TN40 2JG

Wednesday 27 June 2018 from 4-6pm

This course for teachers who have not previously taught mechanics. It will cover the key topics of motion and force which underpin the mechanics content in the new Maths AS/A Level.

Prior knowledge

Knowledge of GCSE Higher tier content and a working knowledge of AS pure mathematics is desirable, but not essential.

Course aims:

- To introduce the fundamental concepts of motion and force
- To provide a basis of understanding of underpinning ideas for teachers to build upon
- To explore and discuss classroom activities including simple practical work

Course/event fees and application:

The event is free of charge thanks to the East Sussex post-16 Education Improvement Partnership.

To apply please email the post-16 EIP Co-ordinator:
