Don't miss our future meetings

Information will appear on the FMSP events for teachers page about meetings in the Spring and Summer terms.

Use of Technology in the new A level Mathematics: Graphing Apps

At this meeting:

Tom Button (MEI Learning Technology Specialist) will lead this session. He will explore how to use tablets or smartphones in A level Maths lessons using the GeoGebra and/or Desmos graphing apps. There will be an opportunity to try some resources as well as ideas for how to integrate the technology into your teaching. Teachers will need to provide their own device (smartphone, tablet or laptop) with GeoGebra or Desmos installed on it.

- GeoGebra is available free via www.geogebra.org
- Desmos is available free via www.desmos.com

This session is suitable for all teachers of A level Mathematics. No previous experience of using GeoGebra or Desmos is expected.

Light refreshments will be provided.
