**A light buffet will be available
from 3:30pm onwards**

West Midlands Mathematics Teacher Network

**Using the CASIO ClassWiz Calculator
presented by Will Davies**

At this meeting:

Using the CASIO ClassWiz Calculator

This workshop explores the functions of the CASIO ClassWiz calculator, and how to best use the new functionality at GCSE and A Level. You will have time to explore all of the relevant modes and begin to use the calculators as your students will have to. Please bring you ClassWiz if you have one, although there will be spares if you do not have one yet.

Will Davies

Will Davies is a maths teacher, with responsibilities for Assessment and Trust Data at Tudor Grange Academy Trust. Within maths he has specialised in working with some of least able students, as well as teaching the most able at A Level, specifically in the Statistics modules. He has incorporated the ClassWiz into the old A Level Statistics as well as the new A Level, and also at GCSE.

The West Midlands Mathematics Teacher Network is an FMSP-funded project allowing teachers of maths to meet, to collaborate and to share professional development. We usually meet termly and the programme is a mixture of informal sessions and speaker-led training events.
